To whom it may concern:

Subject: Compliance with REACH Regulation EC 1907/2006

Honeywell Safety & Productivity Solutions (SPS) is committed to its compliance with the REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals) regulation. As part of our ongoing compliance commitment, we undertake processes to identify which, if any, substances of very high concern (SVHC) (meeting the criteria set out in Article 57 of REACH and included on the REACH Candidate List for further regulation), are contained within the product we supply to you.

This communication refers to the latest version of the ECHA (European Chemical Agency) Candidate List dated **08 July 2021, 219 SVHC list**

As part of the SVHC identification process, we have:

- reviewed our internally and publicly available engineering data in relation to the presence of SVHCs in our products or any of their component parts;
- reviewed available safety datasheets for all our input materials;
- Communicated with our suppliers to exclude/confirm the presence of SVHC in any component parts of our products.

In accordance with Article 33(1) of the REACH regulation, this communication applies to the product(s) listed in Appendix 1 below. Where a product is deemed to contain one or more of the listed Substance of Very High Concern (SVHC) above 0.1% weight by weight, both the substance and its CAS number is provided.

Sincerely,

Martyn Rowe
Manager Product Stewardship
